

At Ascot, we are proud of our English language environment, where students develop creativity, grow personally and pursue academic excellence in a warm, caring international community.

We guide students to be:

Aspiring

Strive to reach full potential academically, personally, physically and creatively
Demonstrate self motivation and an enthusiasm towards learning

Self aware

Participate in physical activity and understand concepts of health
Engage in reflection and self assessment

Confident

Use English for a variety of communicative purposes.
Demonstrate independence and work co-operatively and collaboratively with peers

Open minded

Engage in cultural experiences relating to themselves and others
Demonstrate cultural understanding, respect for diversity and compassion for others

Technologically literate

Communicate and conduct research using technology
Use ICT skills ethically, enhancing learning in other subject areas

Parents, teachers and administrators work together to achieve this by:

- Providing a modern, well maintained campus in a natural setting
- Welcoming students from the local and international community
- Fostering effective communication between parents, staff and students
- Encouraging students to interact positively in the community, with confidence, respect and cultural awareness
- Employing qualified, personable teachers who plan for and support students in achieving their goals
- Adapting the National Curriculum of England and Wales appropriately to meet the needs of all students
- Planning international and cultural experiences, embracing diversity in beliefs and traditions
- Planning community projects, theme days, after-school activities and trips
- Implementing standardised testing, teacher based assessment and student self assessment practices
- Celebrating the uniqueness of each student and encouraging creativity
- Preparing students for the way of the future with classrooms that support web-based learning and interactive technological resources
